EDUCATION

Computer Science

Nitte Meenakshi Institute of technology

07/2019 - 07/2023

Bengaluru, india

B tech

- Computer Science

SKILLS

API designing

Data structure and Algorithm

mySQL

c / c++

python

dart

flutter

flask

MongoDB

Nodejs

Express js

AWS cloud

firebase

WORK EXPERIENCE

App Developer intern

Worthy Ads

09/2020 - 11/2020

New Delhi, India

worthy Ads is a Business growth services providing agency

Tasks

- I help them to build a frontend UI of app using flutter.
- I implemented a feature of video player using youtube api and also use firebase for our backend database
- I had also organized a webinar via e cell club which was conducted by co-founder of Worthy Ads (Mr. Ankush Sehgal)
- https://drive.google.com/file/d/1Z_8MdpubD_LoY1nbhE25NMw3218dR5BF/view?usp=sharing

Contact : Mr. Ankush Sehgal - 8468089897

App developer

Hackbout (hackathon)

03/2020

Achievements/Tasks

- To create a flutter application with help of firebase ML kit and also design frontend for application.

App developer

NMIT Hacks (hackathon)

01/2020

Achievements/Tasks

- To design UI of our project with integration of geo location api.

Software Engineer

JPMorgan Chase & Co.

08/2021 - 09/2021

This a virtual training program provided by Forage.

Achievements/Tasks

- Interface with a stock price data feed
- Use JPMorgan Chase framework and tool
- Display data visually for traders
- [certificate](#)

LANGUAGES

Hindi

Native or Bilingual Proficiency

English

Full Professional Proficiency

PERSONAL PROJECTS

DnB (09/2020 - 09/2020)

- This is a flutter responsive website , I hosted it with help of **firebase**
- <https://design-n-build-d165b.web.app/#/>

Magicam (02/2021 - Present)

- This is an python project created using **flask** framework , i used an **open-cv** library to build an invisible cloak , In this application black color gets invisible
- Front end of this project are created on **HTML,CSS** and with some basic **javascript**
- <https://github.com/raghav18482/magicam>

Open Diary App (05/2021 - Present)

- In this app I had created rest-api server using **nodejs**, **expressjs** and **mongoose**. For database I am using cloud services of **MongoDB atlas**.
- The fronted part was created on **flutter framework**. Its backend server was deployed on Heroku just for getting the base url to connect my frontend part.
- <https://github.com/raghav18482/OpenDiary-Server>

Scrap App (03/2021 - 04/2021)

- This app will help you to find popular quotes from a website
- For this project i used **flask** for web scrapping using **BeautifulSoup** library and also use as a rest api for the **flutter** app
- https://github.com/raghav18482/flask_scraper/blob/master/app.py
- <https://github.com/raghav18482/scrap-app>

CERTIFICATES

AWS Fundamentals: Building Serverless Application

This is an online course authorised by Amazon Web Services and offered through Coursera

Google Cloud Program

This is 30 days of Program to kickstart my career in cloud and get hands on practice on Google Cloud [ProfileLink](#)

Data Analysis with Python

[Developer Certification](#), representing approximately 300 hours of coursework. Completed 5 projects of Data Analysis offered through **FreeCodeCamp**

Joy of Computing with Python

successfully completed the course with a consolidate score of 81%

Problem Solving

It covers basic topics of Data Structures (such as Arrays, Strings) and Algorithms (such as Sorting and Searching). Offered through [HackerRank](#)

INTERESTS

Traveling
